A solution to produce around 28-30 kWh (Units) per day from the sun which is up to 100% of a 2-4 person family's energy needs.. The production of solar power during the day will avoid load shedding at a virtually 100% level for a medium to large family.. The solution typically won't require grid supply at night.. Grid independence will typically be 100% during the day and 90 % at night
