

Who is Boston Solar?

Boston Solar is a solar company based in Woburn, Massachusetts. Since 2011, the company has installed more than 30 megawatts of residential solar energy in the Bay State. Boston Solar handles the entire solar installation process in-house and offers a 10-year quality-of-work and 25-year product warranties.

Is Massachusetts a good place for solar energy?

However, the experts agree that Massachusetts is an excellent location for solar systems. This section describes the different types of solar energy and how they are used in Massachusetts. In addition, find out what solar programs and incentives are currently available for your home, business, or institution.

How much does a solar panel cost in Massachusetts?

Data from Save On Energy reports Massachusetts solar panel costs cost an average of \$4.06 per watt for residential installations. With the average home system being 5kW, this makes the average cost approximately \$20,300. These upfront costs are lowered by various incentives, including the 30% federal income tax credit.

Are solar panels tax deductible in Massachusetts?

Federal and state tax incentives lower your costs. A federal tax credit allows you to deduct up to 26% of the cost of a solar panel system from your taxes, although this percentage will decrease in 2023. ² In Massachusetts, you can also receive 15% of the system cost as a credit against your state income tax, up to \$1,000.

How much does a 5 kW solar system cost in Massachusetts?

While a 5 kW system will only cost you \$16,158 in Massachusetts, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Massachusetts?
