For an affordable lighting option that adds ambiance to your outdoor space, we recommend the 33-foot-long Brighttown Outdoor Solar string lights. Available in seven colors (we tested white), these fairy lights survived all of our durability tests and were easy to install, with only two stakes needed for the solar panels.

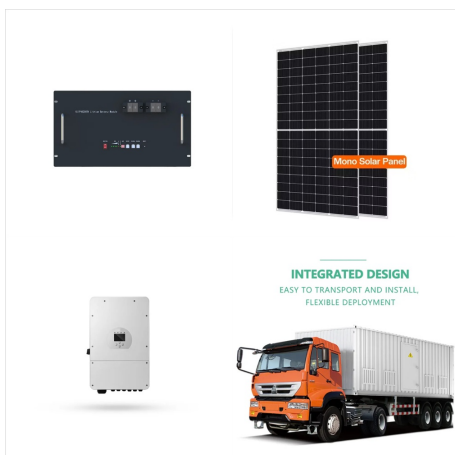

Outdoor solar lights harness the light energy from the sun to make electrical energy, which is used to power a bulb. Sunlight is absorbed by a solar cell, which converts the light energy into electricity using photovoltaic (PV) technology. It's important to keep the solar panels on your outdoor lighting clean and clear of debris. After all

Outdoor solar lights harness the light energy from the sun to make electrical energy, which is used to power a bulb. Sunlight is absorbed by a solar cell, which converts the light energy into electricity using photovoltaic (PV) technology.

Most outdoor solar lights last around eight hours on a single charge, though this lifespan can decrease based on the amount of direct sunlight it receives during the day and the time of year. For example, Aityvert's solar torch lights last up to 12 hours during summer but just five hours during winter.
