SOLAR PANEL PORTABLE GUATEMALA

Without an inverter, a solar generator is useless. This is because all electricity produced by your solar panels runs in DC and is stored in DC. Your homes appliances however use AC current. This means that in order for you to use this stored energy, it first has to be converted into AC current. This is where the inverter comes in handy.

Básicamente, las células fotovoltaicas del panel solar convierten la energía solar en electricidad utilizable. La electricidad generada por los paneles fotovoltaicos instalados se recoge como energía de corriente directa. Actualmente, la energía solar en Guatemala ofrece entre un 13% y un 19% de retorno de la inversión por año en
