

Is it worth installing solar panels in Tucson?

Many homeowners and businesses in Tucson have found solar panels to be worth it due to the city's abundant sunshine. Using power generated by solar energy is a sensible solution to the electricity demands in the hot Arizona climate.

What companies do you recommend for solar in Tucson?

Here are the top companies we recommend for solar in Tucson: At Saguaro Solar, our goal is to provide the very best PV systems for Arizona homes and businesses at a very competitive price. Starting your project is just 10% of work. The other 90% is ensuring outstanding service and attention to detail from design, to i...

Who is the best solar installer in southern Arizona?

As a Panasonic Solar Premium Installer, SolarEdge Preferred Partner, and one of the best-rated solar installers in Southern Arizona, you can be confident you're getting the best system with the best solar ROI! With tax credits, zero-down financing, and advancements in technology, there's never been a better time to invest in a solar energy system.

Should you get a solar loan in Tucson?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Tucson, rather than a leasing company retaining them.

Do I need a solar battery in Tucson?

No, you don't need to install a solar battery in Tucson. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Are solar incentives a good idea in Tucson?

Solar incentives and rebates can cut the cost of installing solar in Tucson by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
