

Reduce your EDF & GEBE electricity bills, lower your carbon footprint, and gain energy independence with custom solar panel installations, solar battery storage, and EV charging solutions for residential, commercial, and industrial properties.

St. Barts" commitment to solar energy is paying off. In 2021, the island generated over 20% of its electricity from solar power. The island is on track to achieve its goal of generating 100% of its electricity from renewable sources by 2030. ???

HELIOS SBH offers photovoltaic modules, inverters and storage batteries solutions. The technical expertise on solar power allow the company to provide consulting and studying, implementation and management.

SOLAR PANELS INVERTERS AND BATTERIES SAINT BARTHÉLEMY

Reduce your EDF & GEBE electricity bills, lower your carbon footprint, and gain energy independence with custom solar panel installations, solar battery storage, and EV charging solutions for residential, commercial, and industrial properties.

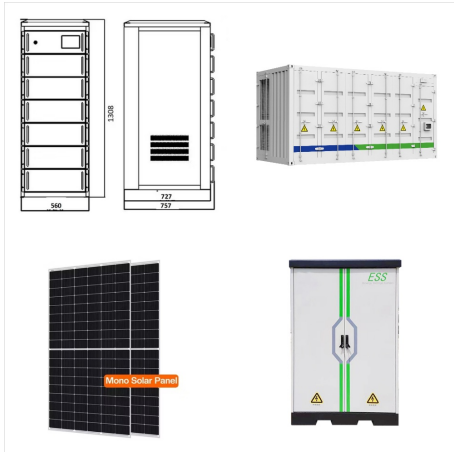

The microinverters are designed for residential applications and support higher powered solar panels up to 670 W DC. IQ8P and IQ8HC Microinverters activated in these select Caribbean countries come with a 25-year warranty from Enphase.

St. Barts" commitment to solar energy is paying off. In 2021, the island generated over 20% of its electricity from solar power. The island is on track to achieve its goal of generating 100% of its electricity from renewable sources by 2030. Here are some of the benefits of solar energy for St. Barts: Reduced reliance on imported fossil fuels

SOLAR PANELS INVERTERS AND BATTERIES SAINT BARTH[©]LEMY

Notre mission ? Saint-Barth[©]lemy est de promouvoir l'énergie solaire pour améliorer l'autonomie énergétique de l'île. Nous proposons des panneaux photovoltaïques, des batteries de stockage et des onduleurs, adaptés aux besoins des résidences, entreprises et infrastructures publiques.
