

How much does a 5kw Solar System cost in Canberra?

The cost of a 5kW solar panel system will depend on the quality of panels and inverter installed and the company doing the job. For the 6kW solar system in Canberra ACT (the most popular size Australia-wide), the average cost in Canberra is around \$7,063. The table below shows the average cost of solar PV systems of different sizes in Canberra.

How much does solar cost in Canberra?

The federal rebate for solar installations in Canberra is available through Small-Scale Technology Certificates (STCs), with an approximate rebate of \$2,287 for a 5kW system. How much to install solar in Canberra? The cost of installing solar in Canberra varies, but a standard 6kW system costs around \$5,730 after rebates.

How much power does a solar system produce in Canberra?

The power output of your solar system will depend on several factors, including: The average Canberra rooftop receives about 8 hours of sunshine per day. This makes it an excellent climate for solar power installation. So, a good quality 5kW solar system, which is suitable for a three-bedroom house, for example, will produce about 21.5kWh per day.

What size solar system should I buy in Canberra?

The most popular system size in Canberra is 6.6kW, balancing cost and energy production. Larger systems like 10kW offer better long-term returns, but your choice should depend on your energy usage. Jeff has consulted on over 20MW of commercial solar projects, ranging from SMEs to ASX top 100 companies.

How many solar panels do you need in Canberra?

The number of panels depends on your electricity usage and available roof space. A 6.6kW system, common in Canberra, requires 16-20 panels depending on their wattage. How many houses have solar panels in Canberra? Approximately 20-30% of Canberra dwellings have solar panels installed, according to data from the Australian Photovoltaic Institute.

Is Canberra a good place to install solar panels?

That being said, Canberra is generally one of the cheaper cities in Australia for installing solar panel systems and the ACT also offers some incentives and rebates for those who opt for solar, which may sway some people.

Canberra, with its 4.8 hours of daily sunlight, presents a prime opportunity for solar power adoption. With median electricity bills of \$1,967, solar panels offer tangible relief. By tapping into the sun's energy, residents can significantly slash their electricity costs.
