Does Melbourne have solar power?

Australia really is a sun-burnt country and even though Melbourne is generally cooler than other cities, there's still more than enough sunshine to justify installing solar power in homes across Victoria. In fact, over 500,000 Victorian households already use solar power to reduce their electricity bills.

How can residential solar power Melbourne help your business?

Our residential solar power Melbourne solutions can help you to control your energy costs, as well as add value to your home. Sunrun Solar can assist your business to cut operating costs and lock in energy rates, helping you take control of your energy usage.

How long do solar panels last in Melbourne?

Most solar panels come with a warranty that guarantees their performance for 25 to 30 years. However, with proper maintenance and regular cleaning, solar panels in Melbourne can continue to generate electricity beyond their warranty period. Can I install solar panels on my Melbourne home if it doesn't receive direct sunlight all day?

Should you invest in solar power in Melbourne?

Investing in solar power in Melbourne is a smart move for homeowners. With the rising cost of traditional energy sources, solar energy offers an environmentally friendly and cost effective alternative.
