such as fluorescent lamps, into power. Stable operation of high-load functions A solar panel that generates power from even a weak light source combines with a large-capacity rechargeable battery to drive multiple power-hungry functions reliably.

This new Solar Atomic model is based on the original DW6900 model, G-Shock's best-selling case design. With this model, a Solar Atomic Timekeeping system was employed without changing the basic design of the watch. This makes it possible to generate power to keep the watch running with extreme accuracy and minimal exposure to normal lighting.

is essentially the base model, the modern version of the original G-Shock. We recommend looking for a display with dark text on a light background for legibility and paying a little more for premium features like Tough Solar (solar charging) and Multiband 6 (as in our top G-Shock recommendation, the GWM5610). Aside from being the OG and tough as a?

The New Style G-SHOCK. An appearance slim, compact, and simple intentionally overturns the notion that G-SHOCK watches are always massive. Heir to the essence of the very first G-SHOCK, the GA-2100 delivers the very essence of functional beauty. The ultimate in minimalist design for contemporary lifestyles.

Experience the G-SHOCK MTG-M900DA-8, a solar atomic watch with robust stainless steel band, 48-city world time, and unmatched toughness. the G-SHOCK MTG-M900DA-8 showcases toughness at its core. Its robust silver stainless steel band withstands the rigors of daily wear while maintaining its stylish charm. Stable solar power. Sporty

This original Casio solar-charging system employs solar panels that convert light even from fluorescent lamps and other sources, combined with an internal rechargeable battery. It generates ample power for smooth operation of power-hungry functions, from measurements to radio wave reception, Bluetooth(R) connectivity, lights, and alarms.

G-SHOCK uses solar power to keep your timepiece charged all day long. Shop our collection of solar-powered digital watches and soak up the sun with the digital timepiece that will never stop ticking. Choose G-SHOCK for the most durable digital and analog-digital watches in the industry, trusted by military personnel, I

How long do solar watches last? Most solar watches last between six months and two years, depending on model. With CASIO / G-SHOCK watches, just 8 minutes of direct sunlight gives you 1 days worth of power - any light source - artificial light such as lightbulbs or natural sunlight. Solar powered watches have a power reserve of up to TWO YEARS

From G-SHOCK, the watch brand that is constantly setting new standards for timekeeping toughness, come new models based on the big case Tough Solar GAS-100. Variations on a basic black design are created by three different bezels. The GAS-100 comes with a stainless steel bezel for a standard design that goes well with a wide range of fashion styles, while the GAS a?|
