

What is a solar inverter product warranty?

Also known as a materials warranty, an inverter product warranty covers the integrity of the equipment itself. If your solar inverter has a defect or mechanical issue or experiences unreasonable wear and tear, that's where your product warranty comes into play.

Do inverters have a warranty?

Most inverter manufacturers offer at least ten years of coverage under a product warranty, and those that don't provide 25 years of coverage often can extend the warranty for an additional price. Module-level power electronics (MLPEs) like microinverters or power optimizers typically have 25-year warranties.

How long is a SolarEdge inverter warranty?

The SolarEdge inverter warranty is extendable to 20 or 25 years, depending on inverter model. We manage a rapid RMA process and generally ship a replacement unit within 48 hours, if the reported defect is eligible for coverage under the Limited Product Warranty.

What is a residential solar company warranty?

Other residential solar company warranties cover one component of the entire system, leaving you with up to 4 separate warranties (panel, inverter, racking, monitoring). With other residential solar companies: SunPower stands behind your entire system, not just the panels. We also:

How long does a solar inverter last?

Use the EnergySage Marketplace to get free quotes for solar systems and compare solar inverter options. Industry standard: It depends on the type of inverter; most string inverter technologies come with a warranty of about 12 years, while module-level power electronics (like microinverters and power optimizers) often have 25-year warranties.

Does SunPower offer a warranty?

Labor, shipping, parts, we've got you covered. SunPower's comprehensive product and power coverage includes a 25 year warranty for everything on your roof (including panels, microinverters and racking) and 10 years for everything not on your roof (storage and monitoring).
