

Where is the solar power plant located in Benin?

The government of Benin is inaugurating the Illoulofin photovoltaic solar power plant. The facility, located in the commune of Pob&#232;, Plateau department, has a capacity of 25 MWp. Benin is inaugurating its first large-scale solar photovoltaic power plant. The installation, located in the locality of Illoulofin, was recently commissioned.

Where is Benin's new power plant located?

The installation, located in the locality of Illoulofin, was recently commissioned. The reception ceremony presided over by Benin's Minister of Energy Dona Jean-Claude Houssou took place on Tuesday 19 July 2022. It was attended by officials from the French Embassy in Benin, and the Electricity Regulatory Authority (ARE).

How many hydropower plants are there in Benin?

The Ou&#233;m&#233; River, the largest river in Benin, was estimated to be able to house around ten hydropower plants with power ratings ranging between 10 MW and 160 MW.

How can bioenergy contribute to the energy sector in Benin?

In addition, the Vossa hydroelectric power plant of 60.2 MW is to be built with an annual production capacity of 188.2 GWh. An additional hydroelectric plant is planned to be installed in B&#233;t&#233;rou to increase the national electricity production in Benin. Bioenergy can also play a crucial role in the energy sector in Benin.

How much energy does Benin produce?

From 114 gigawatt hour (GWh) in 2010 to 1062.8 GWh in 2020, the energy output of self-producers and public power plants increased, with 810 GWh produced by public thermal power plants alone and 71.9 GWh by Benin's portion of Nagbeto's hydraulic production.

How affordable is electricity in Benin?

In 2019, in terms of the affordability of electricity for consumers, Benin obtained a score of 81 out of 100 compared with the average value, which is 77.25 out of 100. The government of Benin plans to continue its efforts to make electricity accessible to the population and ensure energy self-sufficiency.

Solar panels facing south or north in this way, it is possible to optimize the time of exposure to solar radiation and the angle of incidence, improving the capture of solar energy. What is the best tilt ???
