

Solar Power Patios works with your solar contractor or one of our standard electrical contractors to place solar panels on the structure the way they would any structure - only simpler. Below is pricing on our standard size structures and we can provide estimates for the complete system including solar and batteries.

By installing solar panels on your patio roof, you can tap into the abundant and renewable energy provided by the sun. Solar panels work by converting sunlight into electricity through photovoltaic cells, allowing you to generate your own clean energy. This means that you can rely less on traditional grid-supplied electricity, resulting in

A solar patio cover, also known as a solar powered patio cover, is a type of shade structure for your backyard porch that can provide your home with solar electricity. It's usually attached to your home and is supported by 2 or more columns or posts. A solar pergola is the perfect for homeowners who cant install solar panels on their roof.
