solar rental agreement becomes your prime choice
when you:

Solar leases vs. power purchase agreements.
You've probably heard solar leases and power
purchase agreements (PPAs) used interchangeably
and for good reason! These two financing options
are very similar. If you own your solar system,
you'll likely see a 3-4% increase in your home's
value, making your home more attractive to
potential buyers

Get a reliable rent-to-own solar system for your
business or home with flexible financing options.
Starting from only R1 540 per month, you can
overcome load shedding and power outages with a
system that meets your electricity requirements.

It requires limited upfront capital investment, making it accessible to many. This option allows businesses and homeowners working from residential or commercial buildings to benefit from solar power. With a rent-to-own solar system, you can change how you access electricity, enjoying cost savings and a more sustainable energy source.
