Why should you install solar panels in Santa Rosa & Napa?

Installing solar panels in Santa Rosa, Petaluma, Windsor & Napa, CA has never been easier or more cost effective than it is now. There has been a wave of interest in solar energy over the last decade, and Solar Panels have become more advanced and efficient. Sunrise Solar has been on the forefront of that revolution.

How much does solar cost in Santa Rosa?

The average price of solar is about \$2.14 to \$3.22 per watt in Santa Rosa, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Who is Suntegrity Solar in Santa Rosa?

Suntegrity Solar Santa Rosa is locally owned and operated by a father and son team with engineering degrees. They hold construction class B, C-10 and C-46 licenses and are full-service solar installers. All installations are done by their highly trained team- no outsourcing.

Are solar incentives a good idea in Santa Rosa?

Solar incentives and rebates can cut the cost of installing solar in Santa Rosa by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
