Are solar panels a good idea in Springfield?

In Springfield, you can reduce your carbon footprint by 100 pounds a year with solar panels. The good things about solar power are infinite -- just like solar power is! That's why so many Springfield residents have been happy with making the switch to solar. Which solar panel installer is the best near me?

How much does solar cost in Springfield?

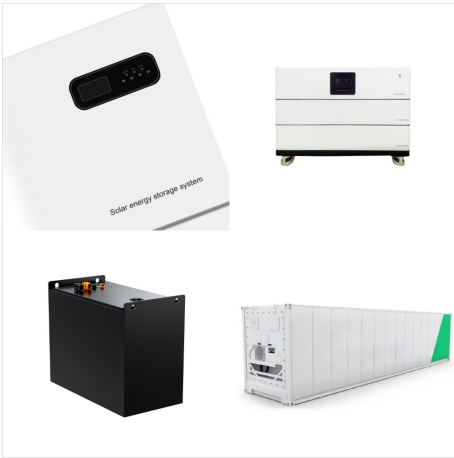

The average price of solar is about \$2.07 to \$3.11 per watt in Springfield, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Do I need a solar battery in Springfield?

No, you don't need to install a solar battery in Springfield. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Is Sunrun a good solar company in Springfield?

Sunrun is another big name you'll likely come across when researching solar leases in Springfield. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company. What are the best solar companies for zero-down solar loans in Springfield?
