At Think Solar, we connect you with the best solar panel installers to offer personalized solar quotes that fit your specific requirements. Explore sustainable energy solutions and receive expert advice for your solar project. Solar panels require little to no maintenance, usually just to ensure that the panels are clean for maximum production.

As a result, your household appliances, be it your fridge, dishwasher, or pool pump, can utilise this solar power, reducing the need to draw from the national electricity grid. Any surplus electricity that your solar panels produce, which isn't consumed by your appliances, can either be fed back into the grid or stored in a solar battery.
