

What are Graber solar shades?

Graber Solar Shades offer superior sun and heat protection, block the heat while maintaining your view, and lower your home's cooling costs. With a wide range of opacities, expanded width options for extra-wide windows, and an easy-install flat valance, it's never been easier to design your whole home in clean, modern style.

What are solar shades for windows & doors?

Solar shades for windows and doors are a revolutionary line of shades that use a specially designed fabric to reduce heat, provide UV protection and block harsh sun glare while preserving your beautiful view.

Are solar window shades a good choice?

Solar Shades -- or sun-blocking shades -- offer multiple benefits to your home, making them an excellent custom window treatment solution: Solar window shades soften the natural light entering your windows which reduces glare, making them ideal for home offices or media rooms.

What are the different types of solar shades?

Our Solar Shades Collection features two styles -- Basic Solar Shades and Designer Solar Shades. Both are available in four transparencies that affect how much UV light is let through and how well you can see through your screen shades to the outdoors.

Are solar shades a good idea?

If your windows overlook gorgeous scenery and a lot of sun is coming into the room, solar shades will block the annoying glare and reduce heat without obstructing your view. They'll also prevent sunlight from fading or deteriorating your upholstery, carpet, hardwood floors and artwork--and they may even help lower your energy bills!

Why do you need a solar shade?

Here's why: Glare Protection: Solar shades significantly reduce glare from the sun and are ideal choices in media rooms and home theaters, or anywhere you spend time watching TV. UV Blocking: Solar shades help to block harmful UV rays, protecting furniture and helping to cut down on heat buildup.
