Solar Structures Ireland stands at the forefront of solar PV solutions, specializing in the planning, fabrication, and installation of structures designed to support solar panels. Their expertise extends to a variety of applications, from domestic carports and pergolas to commercial rooftops and car canopies, as well as custom solutions

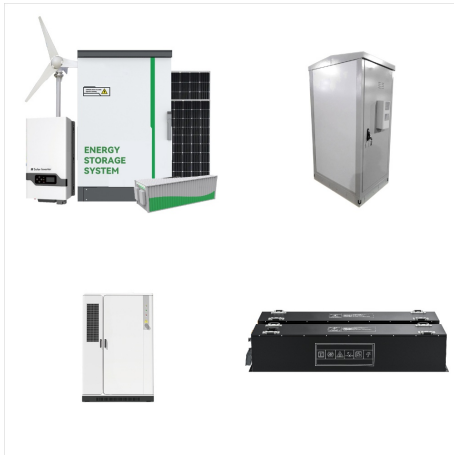

When Caol?n and the team at Doyle & Company solicitors in Blanchardstown decided to lower their carbon emissions they understood that Solar PV would be an ideal solution for them. The offices use a fair amount of electricity during the day, but are relatively low users at night. This meant that Solar PV would appear to be an ideal solution for them.

Our Solar Carports can be installed in office carparks, shopping centres and at home. Our standard size is 5m \* 5m and can generate up to 2kwh of power, perfect for charging your car on sunny days. The solar Carport ??? another great ???
