This is the second project TrinaTracker has secured as the exclusive supplier for solar plants in Uzbekistan, supporting the country's solar power development target of 4GW by 2026 and 5GW by 2030. The country aims to develop high quality solar power plants in a bid to maximise the benefits of solar energy in the energy system.

For Uzbekistan to reach its full solar power potential, it needs to develop solar projects using rooftops and vacant land. Trina Solar, being the world's leading PV and smart energy total solutions provider, can cater to all market segments in Uzbekistan: residential, commercial and industrial (C& I), and utility-scale.
