Here are some outstanding ways to put finished solar system coloring pages to good use. 1. Make a Solar System Mobile. A solar system coloring page is perfect for a mobile, and this craft is easy for children of any age. Once the solar system is colored, have the youngsters cut out each individual planet and punch a hole at the top.

When teaching about the planets, I found it was very useful to assign each planet with a specific adjective like small, red, or cold. Then once the children tell me the planet's name, I asked them if they could describe the planet. Once the children learn about the planets, you can have more natural conversations about space and the solar system.

If you're looking for a fab resource to help you teach your students about all eight planets (as well as the Sun), worry not! It'll be a walk in the park with the help of these helpful Planets Flashcards. Each of the nine cards in this set of planet flashcards features the name of a planet, as well as a detailed image that shows what that planet looks like. These illustrations take care to
