

More than 300 small-scale farmers in Uganda are set to receive solar irrigation systems under the Uganda Intergovernmental Fiscal Transfer programme. This is to assist them to adapt to climate change challenges, said Dr Samuel Kaheesi, the Principal Agriculture Officer for the Kikuube District, where the farmers live in Uganda.

SOLAR SYSTEM FULL SET UGANDA

This study employs a nationally representative data set from Uganda's National Electrification Survey of 2018 to analyze factors influencing households' choice of solar PV system.

In 2014, around 80% of Uganda's population, or approximately 30.9 million people, lacked access to the grid network and in rural areas the electrification rate was as low as 10%. Grid extension is often not a financially viable option for areas sparsely populated or hard to reach and off-grid energy solutions, like solar home systems???
