Minecraft fans are always astonishing their peers with new builds and creations, and the Redditor u/bubbaflubba2 recently shared an incredible scaled recreation of our real-world solar system.

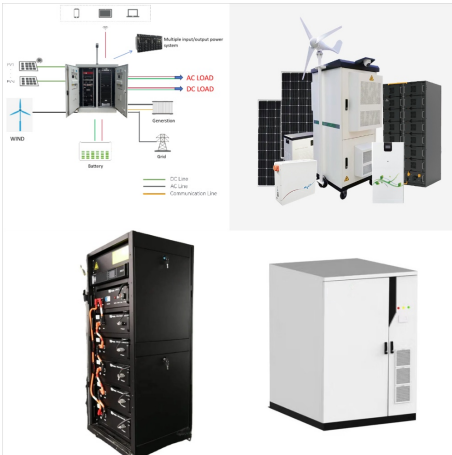

Galacticraft allows you to explore the solar system in your own spaceship. Features. Travel throughout the solar system! Create and customize your very own spaceship! Explore new planets and moons! Space Races - Create Teams, Flags, with Stats! Electrical and Oxygen System! SMP Support - Explore with your friends! Multiple language support!

Planets / Solar System Objects By default, this mod adds all major planets, along with many other objects in the solar system. Planets are rendered similar to stars when not zoomed in, although typically brighter, larger and more vividly colored. Unlike in vanilla minecraft, where the sun, moon and stars pass overhead, they will now be

The solar system version contains the known celestial bodies in the solar system. The Earth replaces the sun with one complete revolution of Earth equaling one Minecraft day. The orbital period of every planet is scaled to match the real-life solar system time in Minecraft days.

NASA's James Webb Space Telescope launched to space Dec. 25, 2021, and has gone on to make detailed observations of the planets within our own solar system, peer into the atmospheres of planets orbiting other stars outside our solar system, and capture images and spectra of the most distant galaxies ever detected.

A talented Minecraft player has built an incredible recreation of the solar system, featuring a detailed version of the Sun and its orbiting planets. In addition to remaking each of these

I created the Solar System in Minecraft to scale within the limitations of the world. All the planets are the correctly sized in relationship with each other. All the moons have been included and labeled. All the planets rings have been included and labeled.

A mod about stargazing, marshmallows and creating customisable solar system displays! Video showcase: Gallery. FAQ I will not backport this mod to older versions of Minecraft, and I will update it to future versions when I feel like it. If you want it updated to newer versions, feel free to contribute to the mod and make a pull request, it

The answer has been given many times by various Minecraft players across the world. But today, we will be taking a look at a crazy out-of-this-world build (quite literally) that'll blow your mind. It's a build of the solar system inside Minecraft. Solar System Build in Minecraft
