The company claims that its 2-in-1 roofing material with solar modules does not use aluminium frames and offers approximately 9% CO2 emission reductions compared to mainstream solar panels in Estonia. Roofit.solar has installed more than 200 systems in 10 European markets and operates a manufacturing facility with an annual output of 10 MW.

When Solarstone started in 2015, the solar panel market was essentially mature, innovation was driven by materials science, but there were limited possibilities for the application of solar panels. Existing solar solutions available on the market were either too expensive or unfit for various reasons, mainly poor aesthetic appeal. This created an immediate understanding by ???
