

Palau Solar understands renewable energy. Our parent company, Uutiligence, works exclusively in the field of renewable energy connectivity, helping to power solar, wind and hydrogen power on projects worldwide. We have a local, bilingual team of expert installers, all trained to the highest standards to ensure that your solar installation is fitted quickly, easily and with minimal fuss.

Soler & Palau Ventilation's aftersales team strives to advise & provide the most appropriate technical solutions for every product requirement to ensure the longevity & efficiency of your industrial ventilation system Air Handling Units; In-line Duct Fans; Heat Recovery Units; Acoustic Cabinet Fans; Roof mounted fans; Comfort Cooling Range

Range of domestic Heat Recovery Units with high efficiency counter-flow heat exchanger (up to 92%) and low consumption EC motors. The units assure a continuous and balanced ventilation system that guarantees compliance with many legislative requirements. A wide range of heat recovery units to meet the ventilation needs of any type of home.

WTW-unit met hoog warmteterugwinning rendement. De unit zorgt voor een ventilatiesysteem dat de vochtige, muffe lucht in natte ruimtes afvoert en gefilterde, frisse lucht naar de leefruimtes aanvoert. Door de ingebouwde vochtsensor wordt de ventilatiesnelheid evenredig aangepast. Standaard voorzien van G4 groffilters. Optioneel kan een F7 filter worden gemonteerd. ???

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be ???

Get filters for SOLER & PALAU MVHR at manufacturer's prices! Capture 30% more pollutants with advanced German materials. Fast delivery from factory warehouse! Advanced Filters for Soler& Palau Heat Recovery Ventilation Units (MVHR) Elevate your indoor air quality with our top-tier analog Soler& Palau filters, designed for perfect

Discover all the possibilities our air treatment units offer and configure your air treatment unit to find the solution that better suits your installation. UTBS PRO-REG, low profile for false ceiling installation . Air treatment unit range UTBS PRO-REG is specifically designed for installation in false ceiling due to their low profile. The

million in financing to Solar Pacific Pristine Power (SPPP) to support the construction of Palau's first utility-scale solar and battery energy storage facility (the Project). Located on Palau's largest island, Babeldaob, the Project will comprise a 15.28-megawatt peak capacity solar photovoltaic facility, and a 12.9-megawatt battery
