

Which country is launching a solar energy project?

The BOOT (build,own,operate,transfer) solar energy project in Kinshasa,the capital of the Democratic Republic of Congo(DRC) is launched. Named "Kinshasa Solar City",it will allow the installation of several solar photovoltaic power plants near Kinshasa,with a cumulative capacity of 1,000 MWp.

What is 'Kinshasa Solar City'?

Named "Kinshasa Solar City",it will be carried out in two phases by Sun Plus,a subsidiary of TSG (The Sandi Group),a global provider of design,real estate development,construction and logistics services. The BOOT (build,own,operate,transfer) solar energy project in Kinshasa,the capital of the Democratic Republic of Congo (DRC) is launched.

What is TSG & Snel's 'kinhasa Solar City' project?

TSG's subsidiary,The Sandi Group,signed a 25-year power purchase agreement(PPA) with the National Electricity Company (Snel). Sun Plus plans to complete the first phase of the "Kinhasa Solar City" project within 1 year. The electricity generated by the future solar power plants will be fed into the grid of the state-owned utility Snel.

How much money will Sun plus invest in solar power plants?

This step aims at the installation of several solar photovoltaic power plants,with a combined capacity of 600 MWp. Sun Plus which won the contract to install the first photovoltaic solar power plants with a total capacity of 600 MWp. For both phases,the company is expected to invest one billion dollars.

Will Snel buy 100% of the electricity produced by solar power plants?

According to the authorities of the DRC,Snel will purchase 100%of the electricity produced by the solar power plants at a set rate of \$0.095 per kWh. This will significantly improve the public company's electricity supply to the 14 million inhabitants of the capital Kinshasa.
