

The Solectra 10kW/15kW On-Grid Solar Inverter is the optimal power solution for larger residences and small office-based businesses requiring three-phase power. Engineered for maximum efficiency, this inverter is specifically designed to harness the full potential of your solar panels, converting substantial energy into electricity for extended durations.

Introducing the Solectra Lithium-ion Battery Series! The ideal solution for residential solar energy storage, offering a robust and efficient storage option. With a standard specification of 51.2V/100AH, ???

We are a specialized solar energy company, committed to delivering advanced alternative energy solutions that are reliable, sustainable and best-in-value. With our futuristic capabilities and our dedication to drive innovation, we deliver comprehensive solar energy services to enterprises and consumers, tailor-made for multiple budgets.

Model No. R6KL1-G2~R8KL1-G2. The Solectra Hybrid Inverter G2 Series inherits all the outstanding features of its predecessor, offering a bi-directional energy storage solution in a more compact and lightweight design. This versatile inverter is compatible with both on-grid and off-grid PV systems, making it an ideal choice for a wide range of applications.
