How does Ecolab reduce packaging waste?

It also reduces packaging waste by 33% and is 99.7% Phosphate and Phosphorus free. The content you requested is not available. Ecolab is a global sustainability leader offering water, hygiene and infection prevention solutions and services that protect people and the resources vital to life.

What makes Keystone Solid Power XL different?

Keystone Solid Power XL stands out with 33% less packaging waste (when compared to Solid Power and Solid Power Plus). It is also environmentally responsible with industry-leading, low-phosphorus performance (99.7% phosphate and phosphorus-free). This detergent reduces glassware replacement by preventing filming and glass etch with its GlassGuard(TM) feature.

Solid Power XL with GlassGuard??? is a machine warewashing detergent that provides a layer of chemical protection during each wash that protects glass from the elements in dishwater. GlassGuard??? is replenished each wash cycle and rinses away cleanly to provide the best possible results while protecting against the damaging effects of etch.

5 Glass Guard Solid Power XL helps protect your most valuable asset . . . your image and reputation for cleanliness. Unlike other products, Solid Power XL Glass Guard stops ugly spotting without constant re-washing. During the wash cycle it provides a layer of chemical protection that protects glass from the elements in dishwater.
