By pooling resources and knowledge with SK On, Solid Power aims to address the evolving energy storage needs across various sectors. This partnership exemplifies how synergistic relationships can cultivate innovation and drive advancements in battery technology. Conclusion

How did solid power perform in the third quarter of 2024?

Solid Power delivered \$4.7 million in revenue during the third quarter of 2024, a decrease of \$1.7 million compared to the third quarter of 2023. This decrease is primarily due to the timing of completing BMW JDA milestones in 2024. Revenue for the nine months ended September 30, 2024 was \$15.7 million, up \$0.6 million from the same period in 2023.

What is solid power's sulfide-based solid electrolyte project?

With this project, Solid Power intends to install the first globally known continuous manufacturing process of sulfide-based solid electrolyte materials for advanced all-solid-state batteries (ASSBs) and expand its electrolyte production capabilities at its Thornton, CO facility.

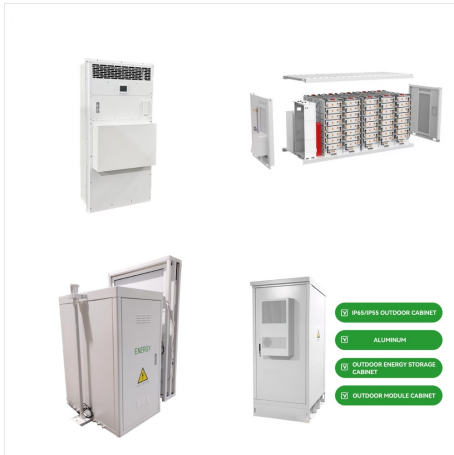

Solid Power, the leader in sulfide-based all solid-state batteries (ASSB), in partnership with BMW North America and with key support from Sandia National Laboratories (SNL), proposes the development and demonstration of a high-throughput, roll-to-roll (R2R) production process culminating in extensive performance testing (electrochemical and abuse) and vehicle ???

Solid Power's all-solid-state batteries remove the flammable liquid electrolyte and polymer separator layer in a traditional lithium-ion battery and replace it with a solid layer. This thin, solid layer acts as a barrier to keep the anode and cathode from touching one another, which would short the battery.
