

Does Solis offer a warranty on solar inverters?

Solis now match the market expectation of providing a full 10-year warranty for their inverters. In the event of a Solis replacing an inverter, customers must bare the cost of returning the solar inverter to Solis Australasia, which is presumably to their Melbourne office.

What type of solar inverter does Solis offer?

Solis offers a range of single-phase inverters, including the S5 and S6 series. The S5 series covers a power range from 3kW to 10kW, with a maximum efficiency rating of 98.0% on the larger inverters. The 7kW to 10kW S5 inverters come with 3 MPPTs offering greater flexibility to solar designers to maximum the solar panel coverage of the roof.

Who is Solis solar?

We should start our review by explaining a bit more in-depth what Solis is and how the company came about as one of the rising promises in the solar industry. It was established in 2005, and after a few decades, is already listed among the largest manufacturers of solar inverters and PV solutions.

Are Solis inverters switched on?

Not switched on yet. Awaiting inspection as with the solar panels. Learn the pros and cons of Solis Inverters. An independent review uncovering everything you need to know. Get the facts before you buy!

Does Solis sell solar products in Australia?

As Solis does not believe in compromising the quality and distribution of the products, it does its bartering through one of the top 3 retailers in Australia, which also includes a few top specialist solar wholesalers.

Where are Solis inverters made?

As mentioned above, Solis inverters are manufactured in China. But, they have got their office set up in Australia, Cheltenham, Victoria. Therefore, you don't have to worry about not being able to reach them if you face any sort of problem.
