

Why should I choose Solstice for solar energy?

Solstice is committed to ensuring that your investment in solar energy is protected and your system is future proof. At Solstice, we believe that an investment in solar energy is a guarantee for the future.

What type of energy is primarily used in Syria?

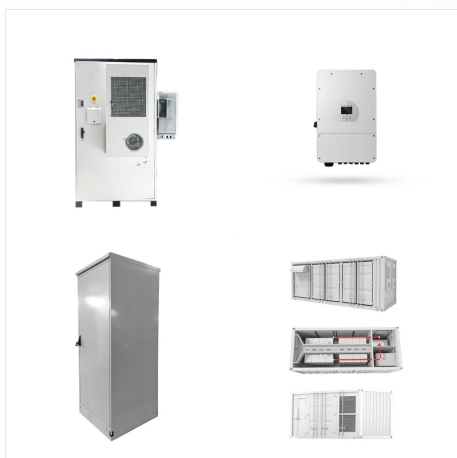

In Syria, most energy is based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. In the 2000s, Syria's electric power system struggled to meet the growing demands presented by an increasingly energy-hungry society.

Why is energy demand increasing in Syria?

Energy demand in Syria has been increasing at a rate of roughly 7.5% per year due to the expansion of the industrial and service sectors, the spread of energy-intensive home appliances, and state policies that encouraged wasteful energy practices, such as high subsidies and low tariffs.

How many barrels of oil does Syria produce daily?

Syria produced 400,000 barrels per day (64,000 m³/d) in 2009 and exported about 150,000 barrels per day (24,000 m³/d). The country's oil reserves were estimated to be 2.5bn barrels in 2010. The Syrian Petroleum Company (SPC) is a state-owned oil company established in 1974.

Prior to Solstice Energy, Kylie worked with Strait Link where she led a number of key people initiatives to support the separation of the business to be a standalone entity. This successful raise comes as we mark 10 years since the founding of Solstic Energy limited, a decade in which we've raised over \$100 million, installed over 9MWp of solar and battery assets, and facilitated over \$250,000 of community benefit payments. Our renewable energy portfolio already provides enough electricity to power the equivalent

Energy in Syria is mostly based on oil and gas. Some energy infrastructure was damaged by the Syrian civil war. There is high reliance on fossil fuels for energy in Syria, and electricity demand is projected to increase by 2030, especially for industry activity such as automation. However, conflict in Syria has caused electricity generation to decrease by nearly 40% in recent years due to plant destruction and fuel shortages. Electricity access in daily life for Syrians has also been ???

St Aldhelm's have signed up with electricity suppliers Good Energy Ltd who source all of their power from renewable energy.
