

What is a Soluna battery?

The battery adopts the latest LiFePO₄ technology and integrates an intelligent BMS to maintain high performance levels across its lifespan. Soluna is a manufacturer of high quality renewable solutions, all of which are designed with environmental sustainability at their core.

What is a Soluna HV pack battery?

Soluna's HV Pack batteries are pre-assembled High-voltage LiFePO₄ Lithium battery storage systems designed specifically for Hybrid homes and small businesses. The Soluna 10K HV (L-E) is a single unit consisting of both the batteries and BMS. Compatible with - Sermatec and Solinteg Hybrid inverters in our current portfolio.

What is a Soluna power bank?

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks. Most energy produced occurs mid day, while peak power usage happens in the morning and evenings.

What is a Soluna EOS 5kW battery module?

The Soluna EOS 5kW Battery Module is the ideal storage solution for residential and small commercial applications. The battery adopts the latest LiFePO₄ technology and integrates an intelligent BMS to maintain high performance levels across its lifespan.

What is a Soluna 10K HV (L-E)?

The Soluna 10K HV (L-E) is a single unit consisting of both the batteries and BMS. Compatible with - Sermatec and Solinteg Hybrid inverters in our current portfolio. The parallel connection of up to 10 identical (via Soluna Parallel Box) allows a maximum capacity of 100kWh. DC power quickly charges the battery when an unexpected blackout occurs.

Who is Soluna?

Soluna is a manufacturer of high quality renewable solutions, all of which are designed with environmental sustainability at their core. Soluna champion the independence that renewable energy brings, removing the dependence on the grid and securing a sustainable energy source for years to come.

The Soluna 10kW High-voltage Battery Pack is the perfect storage system for 3-phase / 1-phase homes and small businesses. The battery adopts LiFePO4 technology and allows monitoring via the Soluna web portal and app. Up to ten identical HV Battery Packs can be connected in parallel, for a maximum capacity of 100kW. **PRODUCT FEATURES**

BATERIA SOLUNA DE LITIO EOS 5KWh Pack-48V
6,000 Ciclos @ 90% DOD. La batería de Litio M?dulo EOS 5K es una batería de última tecnolog?a LiFePO4 48v 5,12kWh de capacidad y con elevado n?mero de ciclos de vida ?til, ???

The Soluna EOS 5kW Battery Module is the ideal storage solution for residential and small commercial applications. The battery adopts the latest LiFePO4 technology and integrates an intelligent BMS to maintain high performance ???

What is the difference between the Soluna S8 and the Soluna S12? The Soluna S8 is an 8kWh battery backup system that can output up to 6,000W (6kW) of power. The Soluna S12 has a 12kWh battery and can output up to 8,000W (8kW). Can I use the Soluna with my solar panels? Yes! Homes with solar panels are a great fit for a Soluna.

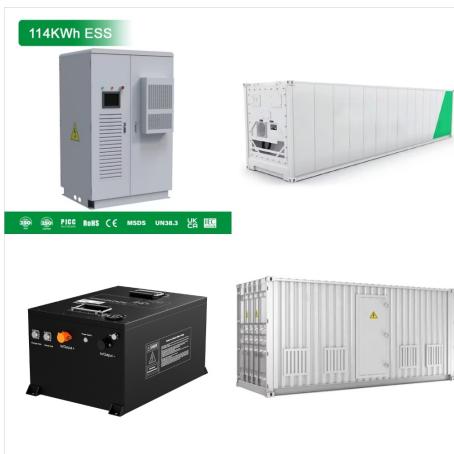

The Soluna HV Pack 10K/15K L-E is a High-voltage LiFePO4 battery storage system designed specifically for households and small businesses. Pairing with a compatible hybrid inverter for flexible system design, daily storage and peak-shaving, and independent blackout protection provides swift instant power to appliances.

Mode 3: If there is a Grid failure or in an off-Grid region, the PV and battery can power the loads together. Mode 4: When the battery is low, and the PV power is unavailable, the Grid can charge the battery, and at the same time, the Grid will also power the loads. Mode 5: A generator can charge the battery bank.

Voici le PACK BATTERIE SOLAIRE 10 KWH d'APSTORAGE ET SOLUNA - votre porte d'entrée vers des solutions énergétiques durables !
Exploitant la puissance du soleil, ce kit comprend des composants essentiels pour renforcer votre indépendance énergétique. Ce pack complet peut être ajouté à votre kit solaire d'autoconsommation avec micro-onduleur APSsystems, vous ???

Soluna 10K PACK LV is a battery solution ideal for residential and small commercial energy storage applications. The model is adopted by the latest LiFePO4 technology with an intelligent BMS integrated in the fault protection for energy security, offering a capacity of 10kwh which can be installed in parallel up to 12 batteries allowing 120kwh of total storage.

Soluna 15K Pack HV is an NCM lithium battery product with BMS (battery management system). It is a high-voltage battery module with CAN communication, under-voltage, over-voltage, over-current, over-temperature, under-temperature protection functions. It has the characteristics of high energy density, long life, safety

Soluna S Series - S12 Power Bank is an All-In-One Energy Storage Systems Integrated with A Hybrid Inverter. Soluna has combined the latest of technology to create this 8kW hybrid split phase inverter + 12kWh battery capacity. SOLUNA S12 can connect to a diesel generator for additional backup. POWER: AC Power - 4600W /6000W/8000W

DetailsThe Soluna HV Pack 15K L-E is a High-voltage LiFePO4 battery storage system designed specifically for households and small businesses. Pairing with a compatible hybrid inverter for flexible system design, daily storage and peak ???

The Soluna 10kW HV Battery Pack has an ingress protection rating of IP54. This means that it is protected from dust, with limited dust ingress not interfering with its operation. It is also has limited protection from water splashing on it, but not stronger sprays. The 5kW Soluna battery pack has an rating of IP20.

Soluna power banks are designed to provide you and your family peace of mind in the event of a power outage. Our power detection system will sense outages in real-time. Download our catalog and get a deeper look at our battery banks.
