

Get answers to your questions about Somfy powered motorized blinds, shades, curtains, awnings and other smart home products. What motors does the Li-ion solar panel work with? The solar panel is compatible with Somfy WireFree motors.

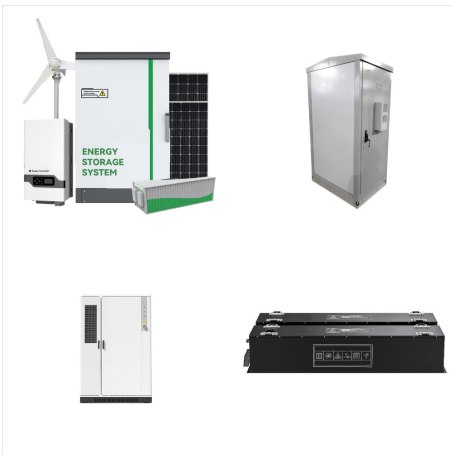

Determine where to mount your Somfy Solar Panel for optimal sun exposure. Options include brackets (2" or 4") for interior window frame, or mounted directly to a window covering headrail where applicable. There's also an option the mount the solar panel directly to the window glass.

- Connected to the solar panel and the motor - Is fixed by bonding or by using specific clamps - Can be reloaded by the supply of a backup power supply
- A specific solar panel : - Converts solar energy into electrical energy - Integrate into an aluminum support

The solar (photovoltaic) panel is simply mounted on in the inside of the window opening and converts the sun's light data related to specific geographical solar zones and optimizing the performance of the Somfy WireFreea?c Solar Pack or call us at 1-877-43SOMFY for additional information.  
Replacement NiMH battery with tube

WireFree Li-ion Solar Panel Kit (Includes Solar Panel, Brackets, and Glass Mount Adhesive)  
Harness the energy of the sun! The new Li-ion Solar Panel harnesses solar energy to replenish power for wirefree motorized window shades and blinds.

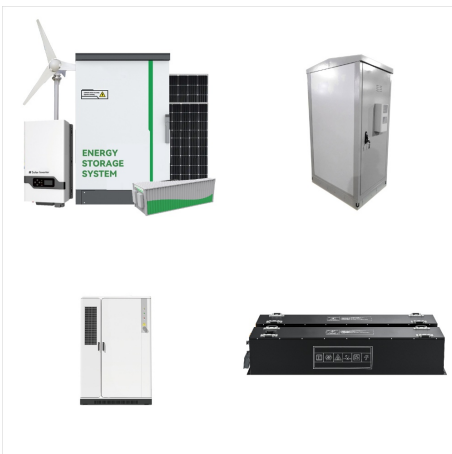

Das 3.2W Solar Panel ist ein Solarpanel, das die Sonnenstrahlung aufnimmt und diese Energie zum Laden der Somfy-Batterie in elektrische Energie umwandelt. Diese Batterie mit erweitertem Spannungsbereich versorgt dann den stromsparenden Antrieb Oximo 40 WF RTS mit Strom.

Solar-powered sun shading is driven by an integrated electric motor. The motor is powered by the solar panel. The solar panel captures light and converts it into electric energy, regardless of a?

the solar panel. Important! The adhesive tape should never be touched directly with fingers (or other contaminants) prior to adhesion. 1) Clean solar panel bezel corners and window area with alcohol prep pad. Let dry for two minutes. 2) On a table, with the solar panel facing up, apply the 2-sided adhesive to four corners of the solar panel bezel.

Solar-powered sun shading is driven by an integrated electric motor. The motor is powered by the solar panel. The solar panel captures light and converts it into electric energy, regardless of the sunlight's intensity. The generated energy is stored in the battery. Direct sunlight is not necessary for the solar panel to generate energy.

The Li-ion Solar Panel is an addition to the Somfy line of products that harnesses the power of the sun to charge your motorized window treatments! We launched the Li-ion Solar Panel in March 2022 a?? an addition to the Somfy line of products that harnesses the power of the sun to charge your motorized windowa?|
