

How do I fix or bypass the Push Power Protector message on my Sony Home Theatre preventing the use of this receiver and it's sound system MOD # HCD-HDX 501W S# 850 8417. I checked the manual and took the corrective steps suggested but nothing works. Expand Post. Home Theater & SoundBars

Tutorial: Learn how to turn captions on or off when watching Internet videos from . NOTE: If model-specific information is needed to complete any of these steps, refer to the instruction manual with the product. If the words PROTECT / PROTECTOR and PUSH POWER appear in alternating sequence on the display of your home audio device, or if the words ???

This is normal. To reset the internal surge protection circuit unplug the AC power cord from the wall for at least 30 minutes. Ensure the top of the home audio device has proper ventilation to keep it from overheating. Running the home audio device in a poorly ventilated cabinet can trigger the protection circuit. Reduce the volume level.

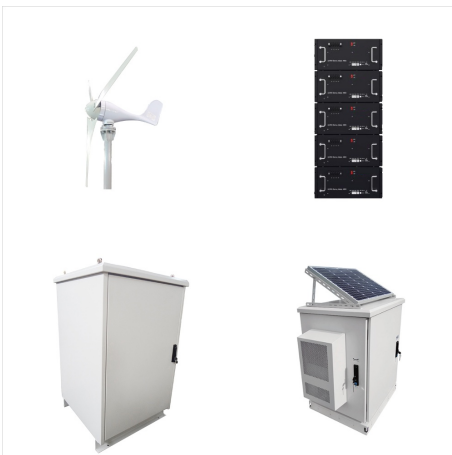

SONY SOUND SYSTEM PUSH POWER PROTECTOR

This is why there is usually a slight delay from the time the unit is turned on to the time you hear sound. In this case, I would suspect that the output transistors/amp pac have failed. The system now boots up and the display, dvd player etc works but no sound from the speakers. I have a Sony BDV e4100 showing push power protection

The PROTECT and PUSH POWER messages will flash alternately when the protective device of the amplifier has been activated because a strong signal was input, or if there is a short-circuit ???

Sony DAV-HDX466 "Push Power Protector" Flashing on Display. and I woke up this morning to find the receiver stating "PUSH POWER" and "PROTECTOR". SONY SOUND SYSTEM PUSH POWER PROTECTOR

The common problem of "Protector Push Power" started on my Sony Home Theater DAV TZ210 a couple of days ago. The online suggestions of checking the speaker wires didn't fix the issue. Finally I cleaned the internal boards and reattached all the internal cables which seems to have partially fix the problem.

I have recently bought a Sony DAV IS10 and have only been using it for half a day and I got the same error message "Push Power Protector". The manual asks you to check for ???

Note: If model-specific information is needed to complete any of these steps, refer to the instruction manual with the product. If the words PROTECT / PROTECTOR and PUSH POWER appear in alternating sequence on the display of your home audio device, or if the words PROTECT or PROTECTOR appear, there may be an external speaker issue or connection ???
