

Who is Octopus Energy?

About Octopus Energy Group Octopus Energy is a global energy and technology group, driving the affordable, green energy system of the future. Its operations span 14 countries and the entire energy value chain. The group invests in, builds and flexibly manages renewable energy, operating a €6 billion portfolio of projects - one of Europe's largest.

Will octopus invest in offshore wind?

Octopus' investment will accelerate Deep Wind Offshore's growth and further develop the company's pipeline of fixed and floating offshore wind farms, potentially also funding projects in other markets. The deal follows hot on the heels of Octopus' announcement to unleash \$20bn (€15bn) of investment into offshore wind globally.

Will solar and wind energy research dominate South Korea in 2035?

The vision of the government is to increase the energy contribution of solar stations and wind farms to 14.1% and 18.2%, respectively, of the total renewable energy production by 2035 (Figure 2) [5,11]. Accordingly, solar and wind energy research will continue to dominate South Korea in the coming decades. Figure 2.

Why did Octopus get a 20bn deal?

The deal follows hot on the heels of Octopus' announcement to unleash \$20bn (€15bn) of investment into offshore wind globally. It marks Octopus' entry into Norway and South Korea's renewables markets, bringing the total number of countries Octopus Energy Generation has projects to 15.

What will Korea's energy future look like in 2035?

Furthermore, the Korean government seeks to develop the solar and wind power sector as major alternative energy resources, which will account for 11.0% of total energy production by 2035. Wind power will play an important role in the long-term deployment plan, where wind farms will supply 18.2% of total energy by 2035. 4.4.

Does octopus own a wind farm?

Octopus already has stakes in the Lincs offshore wind farm and one of the world's largest wind farms, Horns Rev One in England, as well as the innovative Borselle V wind farm in the Netherlands. It also invests in Simply Blue, a developer of floating offshore wind. -ENDS- Notes to editors: Sources: \*Wood Mackenzie Press
