SOUTH SUDAN RENEWABLE ENERGY EQUIPMENT MANUFACTURERS

CAPE TOWN, South Africa, 11 th December 2017
??? The South African power commodity market is changing, and renewable energy is taking centre stage. The growing contribution of renewable power and its inherent intermittent nature will drive demand for upgraded transmission equipment and infrastructure that require minimum maintenance and ???

transitioning to renewable energy. Oil is currently the lead source of electricity in major towns. However, oil is not the right form of energy to meet South Sudan's rising energy demand due to (1) high costs (e.g. high costs of fuel and generator repair), (2) sporadic

"South Sudan Electricity Regulation Authority is the energy regulator in the country. The South Sudan Electricity Corporation (SSEC) is responsible for the generation, transmission and sale of electricity to distributors. South Sudan is a member of the Eastern African Power Pool (EAPP) which aims to optimize the available energy

SOUTH SUDAN RENEWABLE ENERGY EQUIPMENT MANUFACTURERS

Renewable energy costs have dropped dramatically in recent years, and usage has increased accordingly worldwide. These gains have not yet reached South Sudan and other conflict settings. Transitioning internationally supported humanitarian operations from diesel to renewable energy would unlock numerous near-term and longer-term benefits.

Our expertise encompasses the development of robust machinery engineered to harness, distribute, and optimize power across diverse sectors, from renewable energy to traditional utilities. This positions us to tackle the evolving challenges ???
