

Digital Energy TMGT Series 1000-3000VA Tower Uninterruptible Power Supply (UPS) The Digital Energy TM GT Series Tower UPS provides a high quality power protection in a cost effective package. The GT Series is a compact, true VFI (Voltage and Frequency Independent) on-line double conversion high performance device. The UPS is designed to support and

??? GE Digital Energy announces the GT Series 5-10kVA UL Listed, single-phase double-conversion Uninterruptible Power Supply (UPS) system that combines high power capacity and internal batteries in a compact size, making it an ideal solution in applications

With the Digital Energy GT Series, your mission critical equipment is protected from any ??? uctuation in your power source, enabling you to concentrate on your core activities. The GT Series is a true VFI (Voltage & Frequency Independent) on-line double conversion, transformerless, intelligent and high performance UPS.

# SPAIN DIGITAL ENERGY GT SERIES **SOLAR**<sup>®</sup>

All GE Digital Energy GT UPS's are microprocessor controlled and equipped with RS232 communication and optional SNMP interfacing capabilities for all major operating systems, with extended optional battery pack runtime options available. The GT Series is designed especially for typical rack mount demands, including long backup times and

GE's Digital Energy TM GT Series UL UPS series provides high quality power protection in a cost effective package. The GT Series UL is a compact, true VFI (Voltage and Frequency Independent) on-line double conversion high performance device.

The Digital Energy GT Series Tower UPS provides high quality power protection in a cost-effective package. The GT Series is a true VFI (Voltage and Frequency Independent) on-line double conversion high-performance device. The UPS is designed to support and protect mission critical applications, and the bypass mode provides high reliability

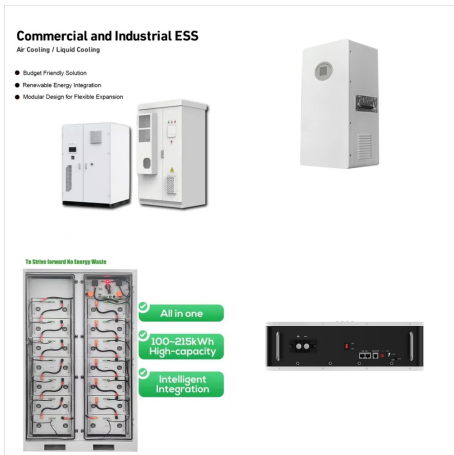

Digital Energy Con el modelo de SAI GT Series de Digital Energy, sus equipos y aplicaciones de carga cr?tica estar?n protegidos de cualquier fluctuaci?n en la alimentaci?n el?ctrica, permiti?ndole concentrarse en las actividades principales de su empresa. La gama GT Series funciona con topolog?a

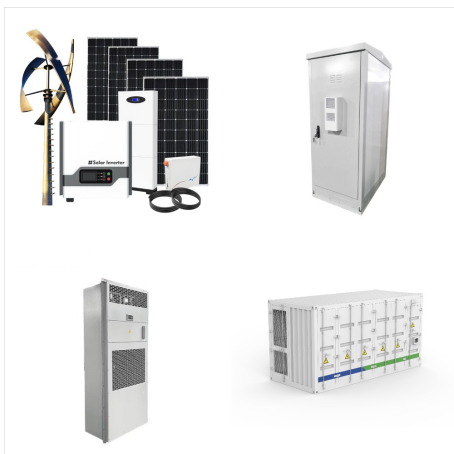

The Digital Energy??? GT Series UPS is a SECOND GENERATION On-Line UPS with: \* a capacitor bank in the DC line \* battery not in line with the DC link, resulting in: - enhanced battery life - optimal battery charging \* full wave input ???

With the Digital Energy GT Series, your mission critical equipment is protected from any ??? uctuation in your power source, enabling you to concentrate on your core activities. The GT Series is a true VFI (Voltage & Frequency Independent) on-line double conversion, transformerless, intelligent and high performance UPS.

Con la serie GT de Digital Energy???, su equipo esencial para la misi?n est? protegido contra cualquier ??? uctuaci?n que se produzca en su fuente de energ?a, lo que le permitir? concentrarse en sus actividades centrales. La serie GT es un UPS VFI (voltaje y ???

The Digital Energy??? GT Series UPS is a SECOND GENERATION On-Line UPS with: \* a capacitor bank in the DC line \* battery not in line with the DC link, resulting in: - enhanced battery life - optimal battery charging \* full wave input converter with power factor correction \* extremely wide input voltage and input frequency tolerance \* no inrush
