"I purchased the Spark energy system about a year ago for my home when I faced a loss due to battery failures in the previous solar panels. I had been purchasing solar panels and appliances from the local market with cash but eventually lost my products to lack of maintenance.

They also replaced 2 solar panels damaged in the same storm. All communication with Spark Solar and the install team were very professional. The team who performed the work arrived on time. It is clear the team has a vast experience of working with all different panels and solar equipment. The re-attach was completed with profession results.

Solar home systems (SHS) are stand-alone photovoltaic systems that offer a cost-effective mode of supplying amenity power for lighting and appliances to remote off-grid households. In rural areas, The fosera SPARK, built on a Pay-As-You-Go basis, comes with three lamps that last six to eight hours when fully charged and three years warranty

Spark Solar Solutions introduces the best 25kW on-grid solar power system for homes. A 25kW solar system generates approx.4500 units every day from morning 8 am to 6 pm which is sufficient to run multiple air conditioners along with refrigerators, televisions, fans, and lights during the day in a big house. Get Detail

The Benefits of Adding Battery Energy Storage to Your Solar Panel System. Texas business owners have been increasingly turning to solar energy to reduce their carbon footprint and save on energy costs. However, many commercial solar owners may not be aware of the additional benefits that come with adding battery energy storage to their solar
