St. Vincent and the Grenadines Botanic Gardens. Kingstown is also famous for its botanic gardens, featured in this photograph. The gardens were created way back in 1765, making them some of the oldest in the Western Hemisphere. They protect a number of rare species of tropical plants and also house aviaries.

The mainland of St. Vincent is volcanic and features a lot of black sand beaches, whereas in the Grenadines we have the stunning contrast of coral islands with pristine white sand beaches. One of the things that people don't realise about black sand beaches, especially where the waves break, is that on a sunny day, the water is clearer than that of a ???
