

Does going solar cost a lot?

Thanks in part to Solar Energy Technologies Office (SETO) investments, the cost of going solar goes down every year. You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy.

What is a warranty on a solar energy system?

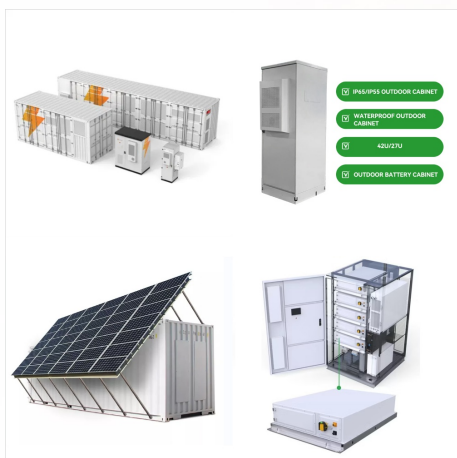

There are multiple warranties that come with your solar energy system, from manufacturer warranties for different components to workmanship warranties from your installer. The workmanship warranty is specific to the work the installer performs, and is typically somewhere between one and 10 years.

Where can I find more solar energy resources?

Find more solar energy resources from SETO. Visit our Solar Energy Research Database. Learn more about SETO's solar energy research. SETO resources can help you figure out what's best for you when it comes to going solar. Consider these questions.

What is a StarWind wind turbine?

StarWind is a new type of wind turbine with a teardrop shaped body and swept blades that makes it very stable in high and low winds. It is an attractive alternative to conventional three bladed turbines. The generator is enclosed in its hollow interior.
