

What types of batteries does EnerSys sell?

EnerSys is the global leader in batteries,chargers and accessories for motive,reserve,aerospace and defense applications. Industrial batteries. Forklift batteries.

What are powersafe&#174; SBS batteries?

Manufactured to the highest international standards,PowerSafe&#174; SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint,while still delivering dependable backup protection.

What are reserve power batteries used for?

Reserve power batteries are used in the telecommunication and utility industries, uninterruptible power supplies, and other applications requiring stored energy systems. These industries include medical, aerospace and defense systems.

Why should you choose EnerSys&#174; batteries?

An essential industry within a fast-changing landscape. EnerSys&#174; provides solutions supporting the vital parts of the network,providing the means to its safe and uninterruptible functioning. When readiness and reliability are paramount,EnerSys&#174; batteries are hard at work in the world's most critical and demanding applications.

When did EnerSys acquire Yuasa?

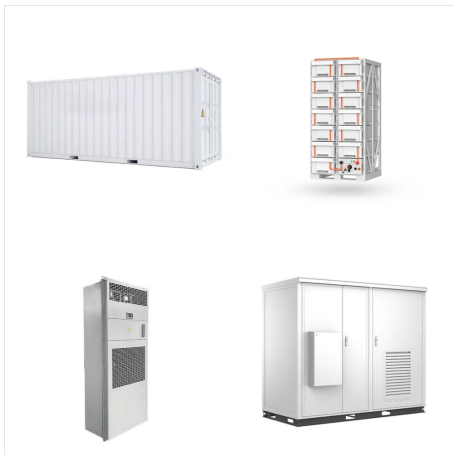

EnerSys,in 2000,acquired Yuasa's industrial division. The Hawker Group merged with EnerSys in 2002. In 2002 EnerSys acquired Energy Storage Products Group of Invensys for \$505 million. Acquired in 2011 in the United Kingdom. Acquired in March 2011 they made Lead and Nickel based batteries for motive and reserve power markets in Greece.

What industries did EnerSys acquire?

These industries include medical,aerospace and defense systems. With the Alpha acquisition,EnerSys expanded its portfolio to become a fully integrated DC power and energy storage system and technology provider for broadband,telecom and energy storage systems.

The HUP battery ensures you receive more runs per shift, a higher capacity for sustained performance during each shift and less maintenance downtime. HUP battery plates significantly reduce flaking and shedding of positive plate materials.

When you purchase a HUP Battery from EnerSys, you are eligible to enroll in our Power Payback Program. Five years after you purchase a HUP Battery, we'll credit you with 15% of the original purchase price when you purchase a new HUP Battery. Along with the HUP warranty, the best in the industry, the Power Payback Program assures you of

NexSys(R) iON batteries feature fully integrated battery management controls that support greater safety, reliability and battery life. Avoid issues related to integrating components from multiple vendors; One comprehensive data and reporting solution; Easy-to-use platforms provide operational support

Enix Power Solutions build many different types of battery packs using EnerSys products, mainly Cyclon batteries. Cyclon batteries are sealed, pure lead acid batteries that are specifically chosen for their design and lifespan. EnerSys Cyclon batteries have a lifespan of 10 years and can achieve approximately 2,000 cycles in full discharge.

EnerSys (NYSE: ENS), the global leader in stored energy solutions for industrial applications and the manufacturer of ODYSSEY (R) batteries, is pleased to announce the commercial launch of its ODYSSEY (R) battery chargers. Available for purchase at major battery retailers across the globe, the new series of ODYSSEY (R) battery chargers can efficiently ???

Genesis(R) NP Genesis (R) NP batteries feature heavy-duty thick lead calcium grids for years of dependable performance. The high energy density design, factory sealed case and leak proof construction ensures that these rechargeable sealed lead acid batteries are extremely reliable and virtually maintenance-free.
