Divisions in Sudan's political establishment worsened growing inflationary pressures that translated directly in rising food and energy costs and strengthened a growing regional black market in which fuel, wheat, sesame and much else was illicitly traded across borders, with the security services" active involvement. Indeed, while civilian

The situation in South Sudan, the world's newest country, is unique. It does not have any real existing energy infrastructure. The government is roiled by factionalism and corruption, and unable to control large areas of its territory, which is divided into diverging tribal groups and significant parts are difficult to access, creating an effective degree of autonomy.
