

What should Sudan's government do about solar energy?

Mr. Afanasiev advised the Sudan's government to continue its current direction of expansion of renewable energy solutions and continue efforts to make solar technology as accessible as possible. The cost should be reduced by tax and duty exemptions.

How can Sudan achieve energy self-sufficiency?

Encouraging solar and wind power in the country's energy portfolio could help Sudan achieve its goal of energy self-sufficiency. Egyptian policies such as nurturing and promoting renewable technologies and scientific research, feed-in tariffs, and tax exemptions could help Sudan achieve its objectives.

Will Sudan face an energy problem in the future?

In December 2014, the United Nations Development Programme (UNDP) warned that Sudan could face an energy problem in the future, if it does not set up alternative power solutions, mainly because of the rapid growth in energy demand.

How can solar power help refugees in Sudan?

In Eastern Sudan's refugee camps and surrounding local communities, solar cookers are being provided by the agency to reduce cutting of local forests for firewood, solar streetlights installed to improve security, and small panels distributed to allow cellphone charging. These are all practical solutions that can be deployed in most areas in Sudan.

Is solar energy making a comeback in Sudan?

Fortunately, the country is now witnessing a comeback to solar energy as it is an effective tool to drive development, employment, and stability - particularly in rural and agriculture-focused communities. "In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this.

Can solar power irrigation pumps in Sudan?

Solar panels power irrigation pumps on a farm in Northern State (UNDP Sudan/Muhanad Sameer) KHARTOUM (Sudan) - Sudan was one of the first nations to understand the importance of renewable energy. In this bid, the country took good steps in early 1980s for the development of rural areas via the

technologies of solar and wind energies.
