

What is Sunnova home solar?

With Sunnova home solar, you can take control of your monthly electric bill by creating clean, renewable energy right from your rooftop. With flexible solar financing, buying solar panels for your home has never been easier.

Who is Sunnova solar?

Sunnova Solar was founded in 2012 in Houston, Texas, and has since served nearly half a million customers nationwide. The company is a full-service solar provider selling solar panels, batteries, chargers, generators and more. Sunnova has maintained a 4.5-star rating with Trustpilot, which is well above average.

Is Sunnova a good company to buy solar panels?

Sunnova promotes its customer focus and promises to keep your system producing for 25 years. But not all customers have been satisfied. If you're looking for a customer-centered approach to getting solar panels, it may be worth getting a quote from Sunnova.

How much does a Sunnova Solar System cost?

Given Sunnova's statement that the average cost per watt for solar is between \$3 and \$5, a 6-kilowatt (kW) system would put the price of a Sunnova solar array between \$18,000 and \$30,000 before incentives. Sunnova's website does not list discounts, but there are a few key ways to save when going solar with this provider.

What is the Sunnova app?

Store the energy you create and enjoy the freedom to live life uninterrupted(TM). The Sunnova App brings together your entire home energy ecosystem in one convenient, user-friendly app to give you unparalleled insight and control. Want More Than Solar? Need to upgrade your existing solar system or main electric panel?

Should I get a solar panel quote from Sunnova?

If you're looking for a customer-centered approach to getting solar panels, it may be worth getting a quote from Sunnova. It offers assurances that your system is working as it should with a simple process for rectifying any problems with your home's solar panels.
