Didn't think two 315 sun systems would fit in a 3
perfectly I'm pretty confident that these can produce
a pound per light or close to it which is pretty insane
for the power It's grows just as well as my other
Philips DE 400w HPS that I use in my other 4 x 4
veg room. I tried to use my Sun System LEC 630 to
flower 6 plants, 3 WW(s), 3

Up to 3% cash back? It has 120/240v select switch. It also came with a heavy duty power cord. Light fixture itself is very heavy duty, also weights a lot. It allows different wave length bulb ???

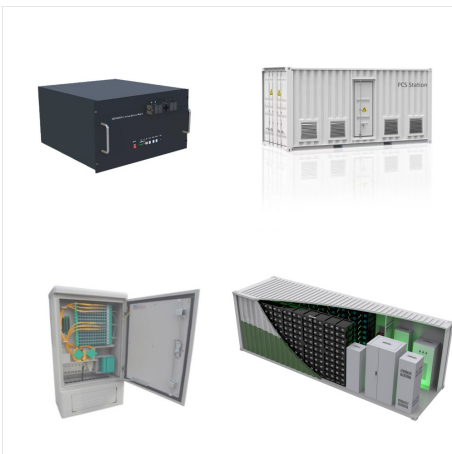

SUN SYSTEMS LEC 315 FOR Flower, Waddy yall think about this lighting?, I have previously used 600 watt HPS Growing with soil for years, and am thinking about switching to LEC, Voltage has nothing to do with watt draw. You will draw less amperage on 220v but your power bill will not go lower because you are using 220V . Reply. Mar 7, 2016
