

What is Sunbox 35A - mobile solar container?

SunBOX 35A - mobile solar container. This container is created to achieve the highest level of efficiency. Thanks to its solar tracking system, it always keeps the PV panels properly oriented. This solution lets you avoid any significant power drops during the day thus get the most out of your panels.

How does the MOVEit Sunbox 35A work?

With the MOVEit SunBOX 35A, a single person can operate the unit and provide up to 13.5kWp of solar power to any remote site. The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear. Once on the ground, the folded-up solar unit first emerges from the top.

How many solar panels can a Sunbox 35A support?

The SunBOX 35A can accommodate up to 35 solar panels on its frame. Each Solar Bruk-Bet monocrystalline module outputs 370Wp. If even one of the panels becomes faulty or otherwise in need of replacement, the structure allows that to be easily done to maintain maximum power output.

If you purchase your SunBox from one of our  
retailers you need to call us and register your  
SunBox to initiate the warranty. All SunBox light  
boxes come with a 7 year warranty. This warranty is  
valid for the original purchaser and covers any  
normal wear and tear of the lamp.

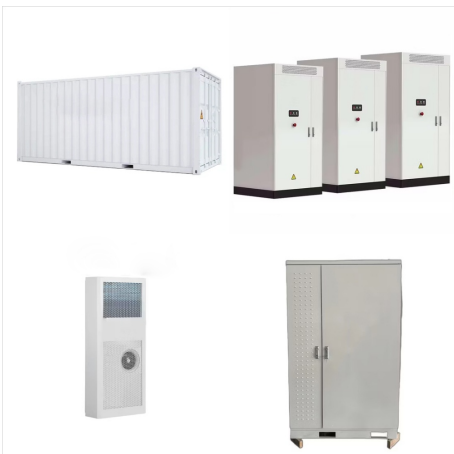

Operate SunBOX 35A in 4 steps. Our mobile solar  
containers are safe and easy to use. We provide  
comprehensive training in our warehouse before  
delivery. Every unit comes with detailed instructions.  
Check the four easy steps below to better  
understand how it works.

SunBox, from Big Dutchman, will significantly increase the profitability of your PV system. Instead of feeding solar power generated during the day into the public grid for a small reimbursement, with SunBox you can use it yourself when it's cloudy or, specifically, during load peaks.

SunBOX 35A. Our most advanced construction. It is based on a subframe that is controlled by a set of hydraulic actuators and electric motors ??? Auto folding system ??? Place for battery and ???

With the MOVEit SunBOX 35A, a single person can operate the unit and provide up to 13.5kWp of solar power to any remote site. The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear.

Con MOVEit SunBOX 35A, una sola persona puede manejar la unidad y proporcionar hasta 13,5kWp de energí?a solar a cualquier sitio remoto. El contenedor solar m?vil puede transportarse en un solo cami?n. A continuaci?n, se puede bajar para que quede plano en el suelo con un mecanismo de elevaci?n hidr?ulico. Una vez en el suelo, la unidad

We are installing PV's frames inside of standard ISO containers. Therefore you can easily ship them into any location you choose to. These rugged, easy-to-ship units are ideally suited for remote locations like rural clinics, temporary workshops, military camps and disaster reliefs. Currently, the maximum power output of SUNBOX 35A is 13,5

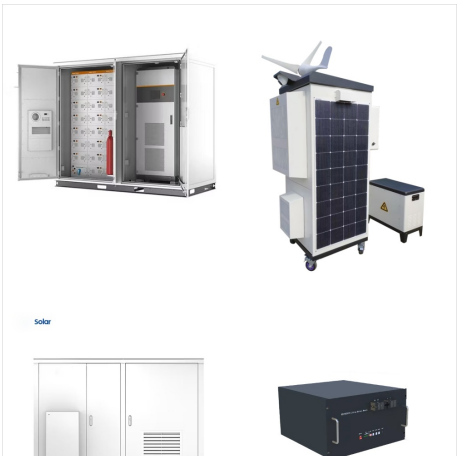

SunBOX 35A. Our most advanced construction. It is based on a subframe that is controlled by a set of hydraulic actuators and electric motors ??? Auto folding system ??? Place for battery and inverters ??? Up to 70 m2 solar area
