

What is Sunbox 35A - mobile solar container?

SunBOX 35A - mobile solar container. This container is created to achieve the highest level of efficiency. Thanks to its solar tracking system, it always keeps the PV panels properly oriented. This solution lets you avoid any significant power drops during the day thus get the most out of your panels.

How does the MOVEit Sunbox 35A work?

With the MOVEit SunBOX 35A, a single person can operate the unit and provide up to 13.5kWp of solar power to any remote site. The mobile solar container can be brought on a single truck. It can then be lowered to sit flat on the ground with hydraulic lifting gear. Once on the ground, the folded-up solar unit first emerges from the top.

What is a solar box 35A?

They have created an innovative, hydraulic mobile solar container that is housed entirely within a common 20-foot shipping container. What comes out of that container, however, is another story altogether. They call it the SunBOX 35A, and it's an absolute game changer.

What is the power output of Sunbox 35A?

These rugged, easy-to-ship units are ideally suited for remote locations like rural clinics, temporary workshops, military camps and disaster reliefs. Currently, the maximum power output of SUNBOX 35A is 13,5 kWp.

How many solar panels can a Sunbox 35A support?

The SunBOX 35A can accommodate up to 35 solar panels on its frame. Each Solar Bruk-Bet monocrystalline module outputs 370Wp. If even one of the panels becomes faulty or otherwise in need of replacement, the structure allows that to be easily done to maintain maximum power output.

How many solar panels can a Sunbox m support?

Hydraulics can run entirely on internal power. In addition, recharging during transport is also possible. Up to 75 kWp.* Power output solely depends on installed PVs. The SunBOX M frame can accommodate up to 180 solar panels. Most noteworthy, frame design enables easy replacement and upgrade of PVs in the future.

*Depends on installed panels.
