

Who is Sune solar?

Sune Solar is an Argentine company that manufactures its self designed solar charger and markets solar energy products throughout the country meanwhile it exports to the entire world. Above all, our vision is to provide a sustainable way of living. Accordingly, our mission is to deliver our best towards the main goal, sustainability.

Who is solar sun Spain?

At Solar Sun Spain, we carry out photovoltaic installations of all kinds. Our team of installers travels to homes and businesses throughout the Costa Blanca to install solar systems in rural properties without grid electricity and those connected to the network.

What is a Sune solar charger?

Sune is an Argentine company that manufactures and markets solar energy products worldwide. The Sune solar charger receives energy from the sun to charge its internal battery and delivers power to charge USB devices such as cell phones, tablets, gps and more.

How much solar power does Spain have?

In 2008 the Spanish government committed to achieving a target of 12% of primary energy from renewable energy by 2010 and by 2020 expected the installed solar generating capacity of 10 GW. Since 2010, Spain has been the world's leader in concentrated solar power (CSP).

How do solar panels work in Spain?

Solar panels take the sun's rays and convert this energy into electricity to power your home. Using the sun's free power for electricity is a no-brainer, and more and more homeowners in Spain are switching to this free energy source.

Is Spain a leader in concentrated solar power?

Since 2010, Spain has been the world's leader in concentrated solar power (CSP). Spain is leapfrogged by Italy during 2011 following a later solar boom there to lose its position as the world's second largest installer of solar PV.

The new energy regulation has put an end to the so-called "sun tax" introduced by the conservative Popular Party in 2015 to tax the development of photovoltaic solar energy and self-consumption in Spain. From now on, Spain will be in line with its European neighbors and closer to achieving the EU's energy targets for 2030.

The largest collection of free solar radiation maps. Download maps of GHI, DNI, and PV output power potential for various countries, continents and regions. Solutions. Services. Pricing. Solar resource maps of Spain. The map and ???

There are different available solar products for each language as well as currencies to choose from.
