

That's Trinity Solar, which formed a decade earlier, focused on HVAC. It's now one of the 10 largest solar companies installing residential solar panels in the US. The solar panels, inverters and battery options Trinity offers are of good quality, with strong warranties (and are popular choices for other companies, as well).

Is Trinity solar better than SunPower?

Trinity Solar will almost always be more affordable than SunPowerif you buy or finance your panels. SunPower comes with above-average pricing for its high-quality solar products and services. However, SunPower also accepts leases and PPAs, while Trinity doesn't. If you're looking exclusively for upfront savings, SunPower is the better option.

Is Trinity solar better than Sunrun?

Trinity Solar stands out from both Freedom Solar and Sunrun by offering roofing services in addition to solar equipment. Trinity is comparable to Sunrun based on pricing, financing options and equipment quality. Its primary downside is its five-year workmanship warranty, which is shorter than those offered by other top solar installers.

Why should you choose Trinity solar?

Trinity Solar, one of the top solar companies, can help improve your quality of life, reduce your environmental footprint and lower your cost of living. The company technicians not only design your system, but they can also professionally install it and handle all the permits so you can begin enjoying the benefits of your new system.

How does Trinity solar work?

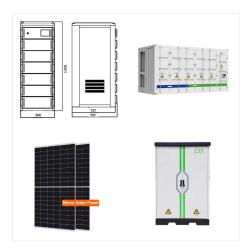

Trinity Solar handles almost all of its installations entirely in-house. This means that the processes of quoting, designing, permitting, installing and the final inspection are all performed by Trinity employees. This cuts out any middlemen and allows the customer to speak directly with the people responsible for their installation and service.

How much does Trinity solar cost?

While we can't provide the Trinity Solar cost, we can provide a rough estimate. The average cost of solar panel systems in the US is about \$16,000, with a range of \$4,500 and \$36,000. There are three ways to pay

for a Trinity Solar installation system:
