A solar inverter is really a converter, though the rules of physics say otherwise. A solar power inverter converts or inverts the direct current (DC) energy produced by a solar panel into Alternate Current (AC.) Most homes use AC rather than DC energy. DC energy is not safe to use in homes. If you run Direct Current (DC) directly to the house

The Australian company that imported KLNE Sunteams inverter is no longer in business. It went into voluntary administration after installing a range of Sunteams inverters nation-wide. They a?|
