

How much solar energy does Portugal produce?

In a bold announcement, Portugal recently surpassed its entire solar output from 2023 by September 2024, celebrating a record year for solar energy production. According to REN (Rede de Energia Nacional), the country generated more than 3.99 TWh of solar energy in just the first nine months, exceeding last year's total of 3.6 TWh.

Should I install a solar panel in Portugal?

It does not really compensate the investment. So you should only install the solar panel system based on your own consumption needs. It does make sense to install as well a battery. In Portugal you will need a lot of energy as well during the night. What are the requirements for selling solar energy?

Can I sell surplus solar energy in Portugal?

Yes, it is possible. The important thing is that you sell the surplus solar energy that exceeds your own use and that you don't install the panel just to sell it. The prices for surplus solar energy range between 4 cent and 8 cent in Portugal. It does not really compensate the investment.

How much VAT do solar panels cost in Portugal?

In 2022, the VAT applicable to the installation of solar panels in Portugal was reduced from 23% to 6%. In Madeira and the Azores, the applicable VAT rate is 5% and 4%, respectively. Under what conditions does a solar panel system make sense?

Why is wind energy important in Portugal?

Wind energy remains a crucial component of Portugal's electricity production, accounting for 25% of the total. Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way.

How many PV projects are mapped in Portugal?

Silva launched the "PV Map" in March 2023. He already manually mapped more than 1,000 PV projects across the country, corresponding to roughly 60% of Portugal's total installed capacity, and is now looking for companies to volunteer information on projects not yet mapped.
